

Whole Life with Long-Term Care Insurance from Allstate

This life insurance policy guarantees a benefit upon death and offers a long-term care (LTC) rider with two kinds of assistance if needed. The LTC benefit is provided either in a nursing or other care facility, or at home.

This supplemental coverage can help cover care you or a loved one may need beyond the short-term skilled or custodial care your major medical or Medicare benefits provide. And the life insurance covers you in the event of death.
